1.~

Winter goes in the rain down the street to the main road
 Flooding all you can see from the sidewalks of Houston
 People sit waiting inside their cars or out in the cold
 They can't see the end where the traffic begins or ends.

2.~

Soon the sun starts to linger behind with the moonlight
 Setting reluctantly, returning in the morning
 Through the clouds it shines brighter than all the stars in the skies
 It fights with the wind for the time in the day of dawning.

3.~

Sometimes it's cloudy all day
 Sometimes the wind may blow strong
 One never knows for how long
 Anything that will stay
 Or it will go away
 One more time, one more chance.
